Journal of Pediatric Ophthalmology

Cumulative Index — Vol. IX, 1972

February, May, August and November

Subject Index

Advances in pediatric otorhinolaryngology: Michael Rollins and Ned I. Chalat. *Feb, p 5.*
Arteriovenous aneurysms of the anterior orbit: in homolateral congenital trigeminal angiomatosis: J. Reimer Wolter, S. Martin Lindenauer, and William L. Traxel. *Nov, p 219.*
Cogan-Reese syndrome: formation of a glass membrane on an iris nevus clinically simulating tumor growth: J. Reimer Wolter and Torrence A. Makely, Jr. *May, p 102.*
Conference of prevention, pathogenesis, and treatment of eye disease in children: V. L. Tsvetkov. *May, p 120.*
Congenital cataracts: current concepts of management: Richard L. Elliott. *Nov, p 205.*
+3.00 D test in esodeviations: Edward L. Raab. *Nov, p 207.*
Differential diagnosis in leucocoria: a series of misdiagnoses: Yomtow R. Barishak and Richard Stein. *May, p 95.*
Duane's syndrome associated with tendon sheath syndrome and microcornea: Irwin S. Weiss and Martin J. Urist. *Feb, p 14.*
Euryblepharon: A. K. Gupta and S. Ramamurthy. *Aug, p 173.*
Evaluation of visual perceptual factors in reading disability: Herman Krieger Goldberg and John T. Guthrie. *Feb, p 18.*
Eye changes in a case of infantile glomerulosclerosis of Kimmelstiel-Wilson: A. Th. M. van Balen, K. Zahn, and H. E. Zoethout. *Nov, p 232.*
Eye findings associated with pediatric malignancies: Stephen S. Feman and Leonard Apt. *Nov, p 224.*
Factors related to postoperative exotropia: Edmund B. Spaeth. *Feb, p 47.*
Familial euryblepharon: J. Reimer Wolter. *Aug, p 175.*
Granuloma in strabismus surgery: Joseph H. Goldstein. *May, p 79.*
Heredity of congenital glaucoma: J. Francois. *Aug, p 144.*
Histopathology of Descemet's membrane tubes: J. Reimer Wolter. *Feb, p 39.*
Hypermetropia and esotropia: Hermann M. Burian. *Aug, p 135.*
Inner canthus — reduplication: P. A. Lamba. *Nov, p 240.*
Intermittent proptosis: record of an unusual case: Dhan K. Sen and Hari Mohan. *Aug, p 187.*
Interpretation of the cover test in small angle deviations: Edward L. Raab. *Nov, p 211.*
Iris cyst: Ira A. Abramson, Jr.; Ira A. Abramson, Sr.; and Leonard Jacobson. *Aug. p 177.*
Keeping glasses on an infant: Henry S. Metz. *Nov, p 240.*
Lid elevation: an unusual case: Mayne Parker and F. Hampton Roy. *Aug, p 183.*
Limbal incision in strabismus surgery: Guillermo Velez. *Nov, p 213.*
Long-term results of the surgical treatment of strabismus: Maynard C. Wheeler. *May, p 76.*
Mesodermal dysgenesis of the eye: Rieger's anomaly: Dhan K. Sen. *Nov, p 237.*
Mydriasis due to parasympathetic denervation as a result of after-shave lotion in the eye: J. Reimer Wolter. *Aug, p 179.*
Neurogliogenic tumor of the ciliary body: Y. R. Barishak; M. J. Block; and R. Stein. *Feb, p 35.*
Ocular and cosmetic problems in frontometaphyseal dysplasia: Sheldon D. Stern; I. Kaufman Arenberg; Robert M. Oneal; Gary S. Sandall; and John F. Holt. *Aug, p 151.*
Ocular findings in developmentally handicapped children: William C. Edwards; William D. Price; and Bernard Weisskopf. *Aug, p 162.*
Ocular involvement in congenital cytomegalic inclusion disease. Ahti Tarkkanen; Lauri Merenmies; and Teddy Helmstrom. *May, p 82.*
Ocular pathology of tuberous sclerosis. Robert S. L. Kinder. *May, p 106.*

Ocular self-mutilation in the Lesch-Nyhan syndrome (hyperuricemia, mental retardation, and choreoathetosis): Paul H. Wilson and F. Hampton Roy. *May, p 98.*
Oculomotor palsy following varicella: B. Sharf and S. Hyams. *Nov, p 245.*
Ophthalmic overview: The idiopathic respiratory distress syndrome: Arnall Patz. *May, p 74.*
Pediatric update: Cardiac surgery: Stewart E. Pursel. *Aug, p 131.*
Pediatric update: The idiopathic respiratory distress syndrome: Robert H. Gregg. *May, p 71.*
Prevalence of ocular diseases other than amblyopia causing severe impairment of vision among pre-school-age children: M. Oliver. *Feb, p 43.*
Recurrent sixth-nerve palsy with amblyopia and secondary esotropia in a child: Ahmad M. Riazi, and Ali A. Khodadoust. *Nov, p 215.*
Reiger's syndrome: a form of iridocorneal mesodermal dysgenesis: H. Dunbar Hoskins, Jr. and Robert N. Shaffer. *Feb, p 26.*
Reiter's syndrome in childhood: a sequel to traveler's diarrhea: James G. Ravine. *May, p 87.*
Relationship of rabbit eye and orbit to sex, weight, and age: Bernard G. Sarnat. *Feb, p 52.*
Role of school vision screening in prevention of amblyopia: Mauricio Brik. *Aug, p 168.*
Semicircular trephine incision for congenital cataract surgery: a preliminary report: R. Pajor. *May, p 108.*
Shallowing of the anterior chamber following the use of echothiophate (Phospholine) iodide: Joseph H. Decker. *Feb, p 16.*
Shigella sonnei keratitis: case report and review of the literature: Stuart L. Fine. *Nov, p 248*
Simple silver impregnation of nerve elements in ocular tissue: Michiro Matsuyama. *Nov, p 253.*
Superficial amputation neuroma following enucleation: J. Reimer Wolter; Norman P. Peterson; and James M. Barnett. *Feb, p 31.*
Tick in the margin of the eyelid: R. Pajor and M. Csolak. *Nov, p 243.*
Traumatic hyphema: a retrospective analysis from the University of Michigan Teaching Hospitals: Conrad L. Giles and William G. Bromley. *May, p 90.*
Ultrasonography in pediatric ophthalmology: D. Jackson Coleman; Robert L. Jack; and Louise A. Franzen. *May, p 111.*
Visual acuity of amblyopic eyes under monocular and binocular conditions: further observations: Shinobu Awaya and Gunter K. von Noorden. *Feb, p 8.*
